YOUR KINGDOM IMPACT 2021

140 WOMEN TRANSFORMED

October 2021 was a milestone for the ministry of FFICM. What a joy it was to fulfill a 20-year old dream. 140 women from Ethiopia gathered to be trained how to follow up with new believers. Hosting a training exclusively for women was a vision Rich and his daughter Dara had been praying forward for years. As the FFICM team walked into the auditorium, the sense of excitement to learn and grow was easily felt. The worship times were filled with powerful singing and dancing!

You are probably well aware that in many contexts women have significant influence over the family and communities.

This sense of Christ influence was witnessed as many of the women who attended brought their children – several of them nursing their babies during the sessions.

You are multiplying new believer follow up! Your prayers and gifts are not only impacting these ladies who attended, but also the hundreds and maybe thousands that they will reach.

God has used the family structure to multiply followers, and you are providing for the same. Every mother who brought their child realizes the importance of nurturing their families into a firm foundation in Christ. The young children became the perfect candidates to share what their moms learned, providing for quick application.

Women have a unique and beautiful gift that allows them to reach others in a special way. When people think about their lineage and their roots of faith, many will mention that it was their mother, their grandmother, or their auntie, who took them to church, prayed with them and for them, nurtured their faith. Around the world women have transformed communities through this life on life approach. Often, we come off as motherly/auntie figures who can share the gospel in a non-threatening way. These women each have that gift and shared their deep care with taxi drivers, neighbors, and anyone who would listen. To hear the stories each day of conversations had with strangers on their way home from training was such a gift. These women's trainings are reaching more people than we will ever imagine because of the simple gift of being female. Often it may seem cultures overlook the impact of women, but it is truly powerful! These women are taking that characteristic of God and transforming the world! - **Carly Powne, International Trainer**
